

Environmental Policy and Objectives

Kaas Tailored is committed to minimizing our impact and risk to the environment in all of our business activities by adopting processes and product designs which minimize pollution while conserving raw materials and energy. Our objectives related to this policy will be for Kaas Tailored to strive to maintain 100% compliance with relevant environmental regulations, and to increase source reduction and recycling. Additionally, we will use Kaizen to continuously improve and eliminate waste from our products and processes.
